

# ACTIVE Box 1er

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Recommended application            | School, university, educational institutions, office, seminar rooms, kindergartens                                                                                                                                                                                                                                                                                                                   |
| Utilization                        | Cube open on one side for sitting. With Connector, the ACTIVE boxes can be connected to each other for stacking and fixing.                                                                                                                                                                                                                                                                          |
| Material                           | KoskiDecor made of Finnish birch plywood 12mm, coated on both sides with robust, washable and translucent melamine resin film. Open edges, finely sanded with chamfered edges 1x45°. Each side with central through-hole min. 72mm to accommodate an ACTIVE connector. Birch plywood is FSC and PEFC certified and comes from ecologically, economically and socially sustainable forest management. |
| Color                              | Birch multiplex with transparent melamine resin coating.                                                                                                                                                                                                                                                                                                                                             |
| Weight                             | 5,7 kg                                                                                                                                                                                                                                                                                                                                                                                               |
| Accessories                        | ACTIVE Connector with key<br>ACTIVE base<br>ACTIVE Box upholstery<br>ACTIVE flag                                                                                                                                                                                                                                                                                                                     |
| Connection of several ACTIVE boxes | Connect ACTIVE boxes safely and easily with an ACTIVE Connector!<br>                                                                                                                                                                                                                                             |
| Dimensions in cm                   |                                                                                                                                                                                                                                                                                                                   |
| Cleaning instructions              | A soft, slightly damp cloth is sufficient for cleaning. A mild soap solution can be used for heavier soiling.<br><br>Please do not use abrasive cleaning agents or aggressive chemicals to avoid damaging the surface. The open, finely sanded edges should be kept dry and protected from excessive moisture.                                                                                       |

# GENERAL NOTE

|               |                                                                                                                                                                                                                                        |

| Consulting                                     | <p>FLÖTOTTO is a relevant development partner for school authorities, architects, ministries and is in daily contact with the responsible teachers in the respective schools. Together, we flexible, age-appropriate educational spaces for intensive interaction between students and teachers. The living and learning spaces we design improve learning success and, together with the architecture, also have a positive on the surrounding area of the school site. We remain your first point of contact until the project is completed and for years afterwards.<br/>Talk to us, we will be happy to advise you!</p> |
