

# BRIXX Single

Recommended application	School, university, educational institutions, seminar rooms
Utilization	Modular pedestal element for assembling in open learning areas, in differentiation areas, the assembly hall and for many other room situations – where a meeting place is required. Can be combined with BRIXX Double. The modules can be conveniently gripped by the rounded recessed grips, transported and placed on top of each other without slipping thanks to the upstand.
Material	<p>3-layer solid spruce wood panel, 19 mm, firmly glued, lacquered on both sides.</p> <p>The machine-sorted lamellas create a balanced wood appearance. Thanks to the environmentally friendly 3-layer gluing in combination with the strong top layers, the raw material wood retains all its good properties and also makes it more stable and durable. The quality of the 3-layer natural wood panel is precisely monitored through ongoing research and the strictest controls.</p>
