IMPORTANT NOTICE

For safe, free-standing installation of the ACTIVE column tubes for the exhibition system, the MOVING BOARD 100 x 100 must be installed as shown in the illustration 'Exhibition Base' with two ACTIVE Box 2 units!

The MOVING BOARD 120 x 100 must be set up for free-standing exhibition with at least 4x ACTIVE Box 1 or 2x ACTIVE Box 2 (boxes connected with connectors)!

Note on assembly

To secure the ACTIVE column tube (set-up variants as shown above), the ACTIVE tube adapter is inserted into the upper through-milling and the base of the ACTIVE column tube is secured in the connector of the attached base cross.

Consultancy

FLÖTOTTO is a key development partner for school authorities, architects, ministries and is in daily close contact with the teachers responsible in the respective schools. Together, we create flexible, age-appropriate educational spaces for intensive interaction between learners and teachers. The living and learning spaces we develop improve learning outcomes and, together with the architecture, ideally also have a positive impact on the immediate vicinity of the school location.

We remain your first point of contact until the project is completed and even years afterwards.

Get in touch with us, we will be happy to advise you!
