Consultancy

FLÖTOTTO is a key development partner for school authorities, architects, ministries and is in daily close contact with the teachers responsible in the respective schools. Together, we create flexible, age-appropriate educational spaces for intensive interaction between learners and teachers. The living and learning spaces we develop improve learning outcomes and, together with the architecture, ideally also have a positive impact on the immediate vicinity of the school location.

We remain your first point of contact until the project is completed and even years afterwards.

Get in touch with us, we will be happy to advise you!
